YESTERDAY'S GAMES

Giants Beat Dodgers.
Brooklyn, July 7.—New York made it four in a row with Brooklyn today and incidentally registered the twelfth straight victory. The Superbas again outthrew the visitors, but could get only one run off 12 hits while New York made it six off ten. Demaree was accorded great support throughout and was pulled out of several tight places. Brooklyn made three hits in the seventh and scored only one run, while three in the eighth went profitless. Curtiss was hit hard in the fourth and fifth and was wild in the sixth when he was taken out after he had passed two men, hit another and was touched for a single for two runs. Stack relieved him, a muff by Hummel letting in the third run. He was effective until the ninth when two hits and a steal sent the sixth New York run across. Miller threw badly. During his stay behind the bat, five bases were stolen on him, including one by Chief Meyers. Meyers hitting, Smith's work at third and Wheat's running catches after a long lay off were features.

R. H. E.
New York 6 10 1
Brooklyn 1 12 2
Batteries — Demaree and Meyers; Curtis, Stack and Miller, Hecklinger.

Yankees Beat Senators.
New York, July 7.—New York and Washington split even on their double header here today. The locals won the first game by 5 to 2, while the Senators took the second by 5 to 1. Fisher pitched the first game for New York and won his first victory in many weeks. He was very effective until the ninth, when the visitors scored two runs on a pass and two singles. New York won this game in the first inning when they scored three runs on Daniels' pass, singles by Wolter, Cree and Hartzell, and a three-base muff by Shanks on Borton.

In the second game Boehling kept up his unbroken string of victories and had little trouble in subduing the locals, permitting five scattered hits. He struck out ten men. Catcher Gossett had a finger split in the first game and as Catcher Sweeney met a similar injury last week, Manager Chance was compelled to use Smith, a recruit from the Kingston club of the New York-New Jersey league. His debut was very bad, all his throws went into centerfield and he struck out three times. In the second game Gandill had a double, two singles and two passes in five times up.

R. H. E.
Washington 2 6 2
New York 5 6 0
Batteries — Engel, Gallia and Henry; Alsmith; Fisher and Gossett, Smith.

Second game:
R. H. E.
Washington 8 13 1
New York 1 5 3
Batteries — Boehling and Henry; Schultz, Clark and Sweeney.

Pirates 5, Reds 1.
Pittsburgh, July 7.—Robinson held Cincinnati to three hits this afternoon and Pittsburgh won by 5 to 1. Brown pitched fairly good ball but a bad pair of errors by Third, Bassano and Dodge in the second inning gave the Pirates two runs without a hit. Byrne's double and Carey's single added another in the third, McCarthy's double and Robinson's single one more in the fourth and the fifth run was made on Wilson's single in the sixth, followed by a sacrifice hit and Robinson's single. The visitors got their only run in the fourth when Devore led off with a double and scored on the next two outs. Manager Tinker was not with the team, being detained in Chicago by the serious illness of Mrs. Tinker.

R. H. E.
Cincinnati 1 3 2
Pittsburgh 5 9 1
Batteries — Brown and Clark; Robinson and Simon.

Braves 15, Quakers 11.
Philadelphia, July 7.—There was an even break in a double header between Philadelphia and Boston here this afternoon. Boston won the opening game by 15 to 11 and lost the second in 12 innings by 3 to 2. In the first game Moore was driven off the rubber in the opening inning. Seven men faced him, they securing a single, a double, a triple, a home run and three passes. Rariden's home came with all the bases occupied.

R. H. E.
Philadelphia 15 18 1
Boston 3 2 2
Batteries — Moore and Rariden; Moore, Chalmers, Rixey, Marshall, Imlay and Killifer, Howley.

Second game:
R. H. E.
Philadelphia 3 2 2
Boston 2 4 1
Batteries — Moore and Rariden; Moore, Chalmers, Rixey, Marshall, Imlay and Killifer, Howley.

Browns Defeat Tigers.
St. Louis, July 7.—St. Louis pounded three Detroit pitchers hard this afternoon and won, 10 to 5, making it two out of three on the series. Pitcher Elder, recruit from the University of Minnesota, made his debut with Detroit but failed to show much, being hit for a double and three singles and walked five batters in three and one-third innings. Detroit was unable to bunt hits except in three innings.

R. H. E.
St. Louis 10 12 1
Detroit 5 10 1
Batteries — Mitchell and Agnew; Duhoe, Elder, Willett, Dause, Stange and McKee.

Athletics 7, Red Sox 5.
Boston, July 7.—Heavy batting gave Philadelphia the best of a double header from Boston today by a score of 7 to 4, while the second game went to the locals who also batted freely by a score of 8 to 3. The visitors drove Ray Collins from the pitchers' box in the first inning of the game. In the ninth inning of this game Boston knocked Brown out of the box after he had kept the locals from reaching first base for six innings. Between the second and seventh innings Boston hit only one ball out of the infield. Bender put a stop to Boston's rally in the ninth after three runs had been scored off Brown.

The Red Sox drove Plank from the box in the first two innings of the second game; Houck, the next Philadelphia pitcher, fared no better. Wagner, the first Boston batter in the

third inning, drove the ball to the fence in centerfield for the longest home run hit ever made inside of the new park. Wyckoff was also batted hard but succeeded in holding Boston to one run.

Schanz, the Athletics' catcher, was hit on the left knee by a foul tip in the second and had to retire.

R. H. E.
Philadelphia 7 9 1
Boston 4 4 2
Batteries — Brown and Lapp; Collins, Bedient and Carrigan, Runnaker.

BIG DUTIES UPON FOREIGN AUTOS

New York, July 8.—The United States treasury has been enriched during the last decade to the extent of \$10,123,427 in duties upon foreign built automobiles brought into this port. In the period named \$774 machines of all classes were imported here, aggregating \$22,567,516 in appraised foreign value, subject to a duty of 45 per cent.

The statistics, prepared at the customs house, show that during the last three fiscal years ending June 30 the importation of automobiles has fallen off. In 1911 for instance, 826 cars were imported, as compared with 1,831 in 1909.

Diagram of the Panama-Pacific International Exposition as it will appear when completed. The exposition grounds will parallel San Francisco harbor for a distance of almost three miles. Their greatest width will be one mile. The actual area of the grounds will be 625 acres, with additional land upon the Presidio, which may be utilized if necessary. The relative height of the buildings may be judged by the fact that the tower in the center of the drawing will be 400 feet in height.

FLYING BOAT RACE STARTS

Five Entries Leave Chicago For 900-mile Cruise to Detroit—Each Aviator Will Carry a Passenger—Janus Starts First

Chicago, July 8.—A fleet of five flying boats will shoot out of the Chicago harbor shortly afternoon today for a 900 mile cruise to Detroit, the most remarkable trip ever undertaken by craft of this kind. Accidents yesterday to two of the aero yachts, delay in adjusting two others and injury to the lieutenant who was to have piloted the navy's entry, reduced the field of starters by half.

The boats will leave the floating slip off Grant park singly to prevent accident and Tony Janus of St. Louis will be the first to get away. Aerial bombs will call the aviators to the line where Harold F. McCormick will wield the starter's flag. Janus will start at 12:30 o'clock and at intervals of five minutes he will be pursued by Beckwith Havens, of Fishkill, Logan A. Vilas, of Chicago; Walter Johnson, of New York and Roy I. Francis, of San Francisco. Each will carry a passenger.

The aviators must maintain a speed of about 50 miles an hour to keep up with the schedule.

AMERICANS ARE IDEALISTS.

A city with its group of lofty buildings has really a picturesque and striking appearance. It impresses Europeans, who see it with some things akin to awe. A New Zealand Englishman, a barrister of the supreme court of that country, landing in New York recently, expressed himself this wise:

"After many months of gray skies and drizzling days in London; after years of disheartening observation of a people sunk in apathy, ignorance, poverty and hopelessness, it was a magnificent tonic to land here and to find blue skies, bright sunshine, an abounding energy and cheerfulness."

and a people with its head in the air, freed from the trammels of the past, rejoicing in the keen rivalries of the present and challenging the future with a confidence which makes the boast of today the victory of tomorrow.

"This may sound a little exaggerated, but it isn't. That's the way I feel about this country, and you must remember that this is my third visit. My reputation in England is not that of the flatterer.

"What strikes me most in New York? Well, to begin with, how am I going to describe or explain a city which builds cathedrals and calls them railway stations or business offices? People in Europe talk of the American greed for money, of the American lack of idealism, of art, of culture. It makes me indignant. No city, no nation which can produce buildings like the Public Library, the Pennsylvania depot, the Grand Central depot and the Woolworth building need fear comparison on any ground of material achievement or of artistic conception with any city or nation in the world."

Architecture is an evolution. The Egyptians, who had been dwellers in caves, evolved the solid stone structures which the Greeks adorned with columns and porticos, and to which the Romans added the arch and the dome. The Goths modeled their great cathedrals after the forests in which their pagan ancestors had been accustomed to worship, while the Arabians and the Tartars embalmed in stone the tents in which they had lived before the days of cities, when they were following their flocks and herds.

MURPHY PROTESTS FORFEIT GAME

Chicago, July 8.—President Charles Murphy of the Chicago Nationals yesterday wired to President Lynch protesting the second game of Sunday's double header with St. Louis which was declared forfeited to the latter.

Not only does Mr. Murphy claim that the game should be awarded to the Cubs, but he also wants Umpires Eason and Brennan reprimanded for giving the game to St. Louis. He does not deny that his players adoptedatory tactics in an effort to prevent five innings from being played before 5 o'clock when the game was to have been called by agreement, but he contends that the visiting team offended first in violating the rule by trying to get themselves put out quickly after they had obtained a three-run lead.

ANSELMO WILL FIGHT

Murderer of Police-Griffiths Retains W. H. King as Counsel—Grill Five Witnesses at First Session

Salt Lake, July 8.—The preliminary hearing of John Anselmo, charged with first degree murder for the killing of Patrolman Thomas F. Griffiths, begun before Justice Harry S. Harper yesterday morning, was not completed when 5 o'clock arrived and a continuance was ordered until 9:30 o'clock this morning. The hearing so far has been marked by efforts of the defense to tangle the state's witnesses by grilling cross-examination.

The last two witnesses to face the ordeal yesterday were Mary Blanchard of 221 West Second South street and W. A. Newsome, an employee at the Sweet Candy company factory, behind which the shooting occurred. Both testified to having seen the Italian shoot Patrolman Griffiths. Efforts of Attorney W. H. King, counsel for the defense, failed to shake the testimony of the Blanchard woman that she had seen the Italian fire deliberately at the policeman.

Newsome testified that he had seen the final shot fired by Anselmo after Patrolman Griffiths had fallen. He said that when the Italian started to run he followed him for a short distance with the idea of capture, but saw Anselmo handling his gun as if reloading it, and thought it wiser not to crowd him.

At the morning session three witnesses were examined. Jolly Jackson testified that she saw Anselmo in the Milwaukee cafe, where she was employed as a waitress, on the morning of the shooting; that Anselmo was still in the cafe when Patrolman Griffiths and Peter Masi entered. She said, in part:

"Pete pointed to Anselmo and the policeman touched Anselmo on the shoulder and asked what the trouble was. Pete took off his coat and said Anselmo had cut him with a razor. The policeman then told Anselmo to come along, but the defendant said he wanted to explain. 'You can explain nothing,' the policeman said. Then they walked out and that's the last I saw of them."

"Did you see any blood or a cut on Anselmo's hand?" asked Attorney King, for the defense.

"No, I did not."

During the cross-examination Attorney King delved into the past record of the witness, but her testimony so far as what occurred in the cafe was unshaken.

IMMIGRANTS IN THE WEST

Secretary Blamplied of Immigration Congress Says All Newcomers Should Be Placed Upon the Land—Court Cannot Care For the Aliens

Seattle, Wash., July 7.—The Pacific coast states are not prepared to care for the immigrants who will come from Europe and from the eastern states upon completion of the Panama canal. The present demand for labor on the coast is not large, and efforts should be made to place the newcomers on land. There is overcrowding and the beginning of slums in all the coast cities. Immigration inspection equipment is inadequate. These are the conclusions reached by Charles W. Blamplied, secretary of the Pacific Coast Immigration congress, in his "special survey of Pacific coast conditions relative to immigration," read tonight before the National Conference of Charities and Correction. The report says in part:

"The California development board recently sent out inquiries as to the demand for labor. Most of the replies said the outlook was poor. California is little prepared to absorb a

sudden influx of laborers. Because of the smaller home market and a population of less density, she is not able to support manufacturing industries and undertake great public works which give employment to large numbers of people in the east.

"The agricultural opportunity is not only the most constructive outlet for the immigrant laborer, but also the place where the Pacific coast people are willing to give him his greatest chance for success. The people who go to the land should be given opportunity to get cheap land or to get land near enough to the city so ready markets can be had for products of intensive farming."

REMOVAL OF ALL GRADE CROSSINGS

Philadelphia, July 8.—The removal of all grade crossings in South Philadelphia, a large increase in the port facilities and other improvements at an estimated cost of more than \$18,000,000 was agreed upon at a conference here yesterday at a conference between city officials and representatives of the railroads affected. The city's share will amount to \$9,746,400, while the Pennsylvania railroad will expend \$7,057,000, and the Baltimore & Ohio \$1,904,800.

ROCKEFELLER IS 74 YEARS OLD

Cleveland, O., July 8.—At Forest Hill, his summer home, John D. Rockefeller will celebrate today his 74th birthday.

With a few of his Cleveland friends present the day will be passed quietly.
